

The **Top Insider Secrets** of Successful Training Habits and Routines for Pets and Pet Owners...

...are finally revealed! Put an end to madness, stress aggravation and frustration, for both you and your pet!

Dear pet owner,

If **you're just sick and tired of cleaning up messes after your dog** – and no kind of training seems to work – then you've come to the right place!

Surely you've heard of people who took their pets to a professional trainer (because they themselves have had enough of the madness you're going through)... and they were **AMAZED** of how well their dogs behaved after the training!

Well... why should you go through all that trouble (scheduling the training sessions, waiting, taking the dog to the trainer, picking it up, paying lots of money)? Wouldn't it be so much easier if you could train your pet yourself? Imagine all the fun, if you could only do it yourself... Think of the strong bonding between a dog and its trainer... Don't YOU want to be the person your dog gets mostly attached to? Why should a stranger take your rightful place?

I'm pretty sure you already thought about most of these things, and you probably even tried a couple of tips and tricks, haven't you?

You must have tried “everything in our power”

Do any of the things below sound familiar?

- *You're trying so hard to train your pet but feel alone, unsuccessful and discouraged.*
- *You love your pet and know how much a well-behaved, trained pet can contribute to your family!*
- *You're stressed out, frustrated and tired of trying so hard with limited or no positive results.*

But who am I to be talking about all this?

My name is Maria Carvalho and I am a professional dog trainer. In my 14+ years of dog training, **I have helped thousands of pet owners** change their dog's negative behaviors into positive, life long good habits with my effective training methods.

After studying veterinary medicine, **I knew that dog training was my passion.** I have a Dog Hotel in my house for pet owners

who travel from across the country to leave their pets with me for personal training. As a member of the Venezuelan Canine Federation, I have had the opportunity to meet many wonderful pet owners who just needed the proper training and guidance to teach them the most effective methods of dog training.

Hundreds of pet owners I've worked with all tell me the same thing. **They are sick of cleaning up accidents** on their nice carpet. They are tired of chasing their dogs around because they wouldn't walk properly on the leash. They are annoyed with friends and neighbors rolling their eyes when they see them struggling with their pet, knowing they must be thinking they just have a "bad dog", or worse, must be a "bad pet owner". Well, my clients are not bad pet owners and neither are you!

So this is why I have a pretty good idea of how YOU must feel!

The good news is...

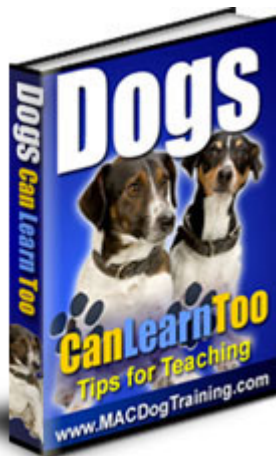

You Can Put An End To It All Starting **TODAY! Here's HOW you can do it:**

Since I am very aware of the fact that not everyone is comfortable taking their dogs to a trainer, I decided it's time to make a change: now, you don't have to go to the trainer, you can **BE** the trainer yourself; but of course, you need to know how to train, right?

This is where I come in: I've created a dog training guide that ANY pet owner can easily use to become **the best trainer his dog will EVER get!**

Introducing...

Inside this professional guide you will discover how to...

I will teach YOU how to teach your PET the good behavior you know they are capable of!

Here are just some of the messages I got from people already using my guide:

"Maria,

I recently trained my puppy, using your book! What a result!!!!!!

He's only 14 weeks old now, and I started using your manual when he was just 12 weeks old, he's already got the idea, and is more, or less fully trained! I downloaded your book, and it worked, pretty much straight away! I was dubious at first, but would definitely, now recommend your book to any puppy/dog owner. Well done! On producing such an informative book, and thank you, so much!"

Katy

"Thank you so much for your dog training guide – it was so easy to read and understand and once we started using your techniques, the results came quickly. I've recommended your guide to all of my dog lover friends!"

Jonathan R., Cambridge, England

"Maria,

Your guide was a lifesaver. Our 2-yr old Cocker Spaniel was out of control before we got your guide. You helped me see how myself and my kids were contributing to his bad behavior and now we've all learned our lessons! We can enjoy our time with Mugsy so much more now.

Thanks a million!"

Angela P., Tucson, AZ

"Maria,

The main problem I had with my pug was controlling his excitement when guests arrive.

Now with what I learnt from the book he no longer rush to people as they enter the house & he don't jump onto the couch when my guests sit down.

I have also learnt how to stop him from barking unnecessarily.

The book gives a very effective way of dog training, and also demonstrates common mistakes people make."

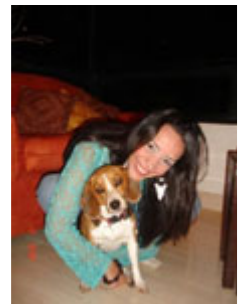

Loreine

"Dear Maria,

My Bubba was driving me crazy! He absolutely would not listen to me or obey my commands. Just taking him for a walk was a struggle, and it was embarrassing to be dragged down the street! I was actually considering finding him a new home when I came across your book. I found out so many things that I had been doing wrong! I trained myself as I trained Bubba, and it worked! Thank you for allowing me to keep my Bubba, who is now a perfect gentleman!"

Cristine

"Hi Maria,

Loved your dog training Book! Your knowledge and expertise is amazing. I am amazed at how well Jackson is behaving and how much others notice. I am able to control him in public. He is great at the vet and at home with guests over. Thanks for helping us be better companions! "
