"Carbon Copy Cash" – the complete manual of guaranteed money making ideas – and step-by-step tips to make them work like a charm!

I don't care if you don't know the first thing about business or you don't have any bright ideas right now. None of that is important. Don't worry about it.

What's important is simply that you are willing to follow these simple step-by-step instructions. If you'll do that, you can be sure to get it rolling in no time!

Here's **why "Carbon Copy Cash" really works** (unlike those old schemes you've seen a million times before):

First of all, **"Carbon Copy Cash"** it's not one of those MLM; there is absolutely no need for you to hunt down every friend of family member and get them to buy something! I tried that, but I know it's absolutely crappy, so I'd never recommend it to anyone...

But have you ever heard about the eBay Arbitrage?

It's a simple technique that allows anyone with a computer and internet connection to earn extra money at home using a free eBay account. The special *twist* I discovered is a secret way that allows anyone to make money on eBay without finding suppliers, stocking inventory or shipping products. More on this technique in about 8 minutes...

Secondly, since there are over 100 different techniques, **you're guaranteed to find one you will get a lot of fun out of!** Did it ever occur to you that one of your hobbies could be a real money digger?

Mike,

I've always been a hand-crafting maniac, my friends were sometimes making fun of my hobby... but I had no idea I could actually make good money doing it! Now it's fun – and some extra spending cash!

It's genius, thanks Mike!

Now here's **why everyone can use "Carbon Copy Cash"** anytime, to get extra cash:

All the techniques that you will find in this book have been put to test and have proven to work every single time! I wouldn't dare put in anything that I wasn't dead sure would work! I'll explain why in just two minutes... Now I just want to add that most of the techniques are based on your already developed skills - so you won't need to spend any time on learning new things! **You can put them to work starting today!**

In fact, about 80% of the methods you are about to learn do not require making any investment at all!

For example, how would you like it if you could make some really good money out of throwing parties? Think about it: parties are excellent places having fun, dancing, meeting new people... But there's one more reason why people are so eager to attend them – and this is exactly where you come in to serve their needs – for a small fee, of course... You'll find it all under the "Singles Mingle" method.

Inside **"Carbon Copy Cash"** you'll learn about...

- A neat way to make money every time it rains (see "Rain after the Movie")
- How to make money with the *free to post* bulletin boards you see in grocery stores, delis and other businesses (see "Classified and Bulletin Boards")
- How to make fast money for a very simple "no-brainer" service you perform for simple people just like you. If they were to do the service themselves it would cost them a lot more than the small fee you're going to charge them. But you can do this service for them while at the same time making some nice fast cash for yourself... (see "Run Errands")
