

# How To Instantly and Effortlessly Get Satellite TV On Your PC

Watch and Record Your Favorite Shows Anytime You Want!

\*\*\* No Monthly Fees. No Extra Hardware. No Cables! \*\*\*

I've been using LiveTV for some time now, and I can personally guarantee that **IT ROCKS!** I can watch my favorite TV shows without having to pull a fight for the remote and I can even record the shows I can't watch, or just don't feel like watching when they're playing.

Well, to put it all in fewer words,  
I can watch **what I want, when I want!**

For example, I had a couple of friends over last week, and we watched some sports, later we went out for some drinks, but meanwhile we **recorded** a great movie that was playing, so that we could see it when we got back!

I'm telling you, it's the best entertainment you can get!

And my favorite part about this is that I **never** have to worry about

- ...outrageous monthly fees
- ...needing an additional device/hardware for my PC
- ...plugging a cable into my computer
- ...paying for TV services
- ...getting a satellite

And neither should you!

This is the smartest way you can watch your favorite TV shows...  
from around the world! It's **the way you should watch TV** from this day on!  
Gain control over your entertainment experience,  
and watch **exactly what you want!**

**LiveTV** is an incredible software that will turn your computer into a satellite TV station  
in just 2 minutes! It's a simple to use and yet very advanced program  
that you install on your PC and can use to watch free satellite TV... forever!

You just pay for the software once, and then it's all yours to enjoy!  
You will never-ever have to pay a dime more!

You can watch over 3000 channels for FREE, no need for  
a cable, no extra fees, no TV required, no satellite, no silly devices for  
your computer, nothing! For crying out loud, you can even record without  
needing a VCR!!!
